

**F**rom deep wound care, post-cancer breast reconstruction and traumatic injury repair to body contouring, facial cosmetics and rejuvenation techniques, Dr. Adam Newman's work runs an impressive gamut on any given day.

All of his work helps patients feel better about their bodies, their abilities and their lives.

"We are very honored to have won the award again this year," says practice manager Christy Newman. "We are very blessed to have an amazing staff. It's not just Adam; our whole team is essential to our success. We work together in service of our patients."

Dr. Newman is board certified by the American Board of Medical Specialties, which oversees the certification of all physicians, and is a member of the American Society of Plastic Surgeons — all of whose members are trained in cosmetic surgery and reconstructive surgical procedures of all types.

After completing undergraduate work in Springfield, Mo., at Drury College, Dr. Newman attended medical school at the University of Arkansas in Little Rock before moving on to his general residency at Michigan State and a plastic surgery residency at Kansas University. When he and Christy were looking for a place to begin their own practice, Mountain Home seemed ideal, and has proven so.

"We are just so happy here on a family level," Newman says.

"I am a physician first, and the patient's medical well-being

ADAM NEWMAN, M.D.

## NEWMAN PLASTIC SURGERY

is my first priority," Newman says. "For instance, women who have breast cancer, I counsel them that they have a voice and a choice if they want to move forward with reconstruction. For women considering cosmetic options, it is also a personal decision. Our clinic has an official motto. It is Hope, Balance, Empowerment and Choice."

"We value and love our association with the hospital," Newman adds.

skin cancer
